HOW TO USE THE DAR PATRIOT INDEX

The names of patriot ancestors are arranged alphabetically by surname. Surnames pronounced similarly are grouped together under the most commonly used spelling. Should your ancestor not be listed under the name as you spell it, try other spellings. Remember that letters with similar sounds are sometimes used interchangeably. For example, Beavan, Bevan, Bevin, Bevins, Bibbens and Bivins all are found under "BEVANS."

Patriots of the same name, and sometimes with service in the same state, are differentiated by the dates and places of their births and deaths and also by their spouses' names. Spouses' names are spelled as shown in NSDAR records. Locations are cited as being in the geographical jurisdiction in which they were at the time of the event. For example, locations now in Maine are listed as Massachusetts prior to 1820.

The *Alphabetical List of Abbreviations* on the following pages identifies those used to conserve space. Familiarity with these abbrevations is essential in order to interpret all the information given. If the existence of a pension is indicated (PNSR or WPNS), a photocopy may be obtained by submitting NATF Form 80 to the National Archives and Records Administration, General Reference Branch, Washington, DC 20408.

This Index does not include all available information on patriots nor does it identify their children. Questions regarding further data on a patriot or his children cannot be answered in detail by the Registrar General's office; however, a photocopy of an application paper of a related member may be obtained for a fee. Remember that NSDAR requires proof only for the child through whom a member descends.

Requests for photocopies of application papers should be mailed to the Registrar General, NSDAR, Record Copy, 1776 D Street, NW, Washington, DC 20006-5392, with a check made payable to "The Treasurer General, NSDAR." Consult the latest edition of the DAR Handbook or the DAR Magazine for the current price.
